Missing	Minor Gap	Build API + integration layer early; enables DarwinBox / Keka / Zoho People integrations for India market	P2	v2
Missing	Major Gap	India gender pay gap data by sector: IT, Banking, Consulting — powerful for media coverage + employer DEI positioning	P1	v2
Missing	Critical Gap	Replace simple bar charts with boxplots on all salary pages; shows data honestly; power users demand this	P0	v1
Missing	Major Gap	India ESOP vesting visualizer: show cliff + monthly vest + tax event timeline; no platform does this for India	P1	v1
Missing	Major Gap	India: 'After COL adjustment, Hyderabad > Bangalore for SWE at mid-level' — powerful insight; drives tier-2 city migration stories	P1	v2
Partial mention	Major Gap	India-first mobile app: PWA + native; offline salary lookup; push alerts for saved companies; critical for India market	P0	v1
Missing	Minor Gap	Partner with IITs / IIMs for research access; creates academic credibility + media coverage + data seeding	P2	v2
Missing	Critical Gap	India career mentorship is huge: 'Find a mentor at Infosys -> TCS transition'; structured mentorship matching > just DMs	P1	v2
Missing	Major Gap	Talentedash awards: 'Best Companies for Women in India' category; massive PR + brand signal; employers pay to be featured	P1	v2
Undersold in sheet	Minor Gap	Talentedash awards must match or exceed this scale: 16+ categories; transparent methodology; India industry segmentation	P1	v2
Partial mention	Minor Gap	Add structured 'Life at {Company}' section: employer-written culture story + employee-verified badges for key claims	P2	v2
Missing	Major Gap	Skill-to-job matching: user tags skills -> matched to companies where those skills pay most; career transition tool	P1	v2
Missing	Minor Gap	Talentedash must make anonymity + safety a product promise in UI copy + onboarding, not just a backend feature	P0	v1
Partial mention	Minor Gap	Add market context to every personal tool: 'Your hike: 12% Market avg: 9.4%' — validates or challenges the user's situation	P0	v1
Missing	Major Gap	Talentedash needs a data scale signal: 'X salaries, Y reviews, Z companies' on homepage; drives contribution and trust; must grow fast	P0	v1

Missing	Critical Gap	Talentedash Expert Network: verified career coaches + senior professionals (named) contribute advice alongside anonymous community; India context: CHRO, senior HRBPs, career coaches	P1	v2
Missing	Critical Gap	Community must support rich media: video clips of 'day in life at Google', photos of office culture, poll results — text-only community is 2020	P1	v2
Partial mention	Major Gap	Named India topic bowls: 'Appraisal Season Bowl' / 'Layoff Watch India' / 'WFH vs RTO India' / 'IIT/NIT Placement Bowl' — topic-specific communities drive retention	P1	v2
Missing	Critical Gap	AI Resume-to-Role Match for India: 'Your profile matches 73% of SDE2 at Flipkart requirements; salary alignment: Rs24-28L vs your current Rs22L'	P0	v2
Missing	Major Gap	Employer company news feed: fundraising announcements, new office, culture events — keeps company page fresh; candidate engagement tool	P1	v2
Missing	Critical Gap	Company follow + alert is a core retention feature: 'Infosys added 8 new salaries this week — you follow this company' via email + WhatsApp	P0	v1
Partial mention	Major Gap	Talentedash Research: publish quarterly India salary reports, appraisal season data, India WFH trend — positions brand as authoritative data source for HR media	P1	v2
Missing	Minor Gap	Talentedash India Podcast: 'Real Talk on Indian Workplaces' — episodes based on trending community posts; distribution on Spotify/JioSaavn	P2	v2
Missing	Major Gap	Talentedash awards badge: downloadable badge kit for winning employers; LinkedIn cover image templates; drives organic brand distribution	P1	v2
Missing	Major Gap	Talentedash Interview Bowl: India-focused real-time interview prep; 'TCS interview tomorrow — what to expect?'; ties into interview data	P1	v2
Missing	Major Gap	India Career Pivot Bowl: 'Service to product switch', 'IT to BFSI', 'Corp to startup' — highly relevant India career discussions	P1	v2
Missing	Critical Gap	Every job card on Talentedash should show: 'Above market', 'At market', 'Below market' badge on the salary — instant signal at listing level	P0	v2
Missing	Minor Gap	India mobile-first product must have dark mode + accessibility from v1; important for battery life and low-light use	P1	v1

ire & Data Point Deep Dive | Blind · LinkedIn · Naukri · Payscale · iimjobs

Data Points Captured	Access Gate	Unique Advantage	Quality (1-5)
Work email domain -> company name	Mandatory for posting	Highest data trust of all platforms; no fake reviews possible; verified employees only	5
Per-alter identity metadata	Login	Unique patent-protected privacy; resolves 'one persona for all discussions' limitation	4
Base, Bonus, Equity (RSU), TC, Level, YoE, Location, Date	Login required	Only verified rows; higher trust than Levels.fyi (which allows unverified); smaller dataset	5
Full comp breakdown in community posts	Login required	Community-validated offers; fastest real-time signal of market rate	5
Post text, reactions, company tag, date, anonymous company badge	Login required	Most real-time company intelligence anywhere; Glassdoor reviews are static; Blind posts are live	5
Company, Date, Package details, Affected count (estimated), Team names	Login required	First mover on layoff data; media cites Blind; drives massive spikes in new user signups	5
Channel-specific post feed + follower count	Login required	Hyperlocal channels; India-specific communities active; drives repeat visits	4
Poll question, options, vote count, date, result %	Login to vote	High engagement + viral sharing of results; media picks up trending polls	4
6 sub-ratings + overall; verified employee badge on each	Login required	All verified; can't be gamed by employers; 350K companies = more coverage than Glassdoor in some markets	5
Overall rating, 6 sub-ratings, median salary, review count (min 10)	Public	Research insight: low salary correlation with satisfaction; culture/mgmt matter more — India-specific finding	5
YoE impact %, cert premium %, location %, industry %, company size %, education %	Give-to-Get	Only platform showing % impact of each factor; educational and personalizable	4
Resume parse, JD parse, skill overlap %, salary alignment signal	Free (2025)	First AI-powered job-salary-profile matching at scale; 900M profiles = best training data	5
Skill name, salary premium %, linked courses, top companies hiring for skill	Login + Premium	Learning-to-earning flywheel; Learning subscription revenue justified by salary ROI data	4
Min CTC, Max CTC, Pay period (annual/monthly), employer-confirmed vs estimated	Public (view)	Employer-confirmed data is gold; AI estimate is clearly labeled; India disclosure increasing	4
Profile view list, salary data unlock, AI job insights	Paid Premium (Rs2-3.5K/month India)	Bundled premium; salary access is key hook; India Premium growing but expensive for most	3
Min CTC, Max CTC, Job title, Company, Location, Skills required	Public	Highest salary disclosure rate of any India job board; sets candidate expectations from first search	5
Current CTC, Expected CTC, Skills, YoE, Location, Education — per candidate	Employer paid	Demand-side signal: what candidates expect vs what companies pay; powerful market intelligence	5
Company, Package (CTC), Role, College, Year, PPO flag	Employer + College login	Structural campus data moat; most India placement data flows through here	5
Service type, Price, Turnaround time, Coach details	Paid	Strong B2C revenue; India professionals pay for career help; trust from Naukri brand	3
Skill list, premium % per skill, salary range with/without each skill, recommended skills	Give-to-Get	Only platform doing skill-level salary impact; not just role/title based	5
Salary bands, market P25/P50/P75 per role, equity benchmarks, bonus %, comp ratio	Enterprise paid	Enterprise comp management replaces expensive Mercer/Radford surveys; large deal sizes	4
Hike %, Budget allocation, Retention concerns, AI adoption in HR	Email gate	B2B lead gen + PR; cited in HR publications; positions Payscale as comp authority	4
Min CTC, Max CTC, Role, Company, Location, Industry, Function	Public	Premium salary disclosure; no guessing; filtering by CTC range prominent	4
Role, CTC range, Company tier (IB/MBB/Big4), Location, MBA tier preference	Login to apply	Fills a huge gap: India's MBA salary data is completely missing from AmbitionBox/Glassdoor India	4
Overall rating, Pros text, Cons text	Login	Gap: premium job seekers have no structured culture data for premium employers on iimjobs	2

Profile visibility rank, InMail credits equivalent, direct HR contact	Paid	B2C premium for job seekers; recruiter visibility as the hook (not data)	3

Yes	Finance-specific comp fields: deal bonuses, carry, retainer	P0 – Must Have	v1	Completely missing from all platforms for India; iimjobs is the only source; Talentdash must own this
Yes	All interview fields + India-specific process types	P0 – Must Have	v1	India: Group Discussion + Walk-in + Aptitude Test fields standard
No	Question text + type tag + frequency count	P0 – Must Have	v1	Frequency tag: 'Asked in 34% of Google SWE interviews'; helps prioritize prep
Yes	Application source field + outcome	P1 – High	v2	India-specific channels; referral vs Naukri selection rate comparison; strategic application advice
Yes	Interview questions DB + AI model	P1 – High	v2	India-context: case study for consulting, DSA for tech, finance modeling for IB — role-specific
Yes	Structured benefit fields; India-specific list	P0 – Must Have	v1	Flag: 'PF capped at Rs1800/mo' vs 'Full 12% PF' — huge retirement difference; expose this
Yes	Stated policy + employee-reported practice	P0 – Must Have	v1	India 2024: RTO enforcement vs stated policy is a huge trust issue; Talentdash exposes the gap
Yes	Structured parental leave fields	P1 – High	v1	Show companies exceeding MBA baseline; 'Benefit Leader' badge for top parental leave
Yes	Company-specific grades + standard mapping	P0 – Must Have	v1	IT: Infosys B1-B8, TCS C1-C4, Wipro B1-B7, Cognizant C1-C5; BFSI: Analyst/AVP/VP; Consulting: Analyst/Consultant/Manager/Principal/Partner
No	YoE distribution per level per company	P1 – High	v2	Shows career velocity: 'Avg 4.2 years to Senior at Infosys vs 2.8 years at Google India'
Yes	CTC + full India tax model; state-wise PT	P0 – Must Have	v1	Superior to AmbitionBox: add ESOP perquisite tax event, NPS, multi-income, deduction planner
Yes	Tax computation model; deduction inputs	P0 – Must Have	v1	'For your CTC, old regime is better if you claim >X in deductions' — universally needed
Yes	Multi-field offer input; ESOP valuation; city COL index	P0 – Must Have	v1	Score each offer on user-defined weights; most personalized tool in market
Yes	ESOP fields; valuation; exit scenarios; LTCG + perquisite tax	P0 – Must Have	v1	Show 3 scenarios: optimistic/realistic/pessimistic; include perquisite tax at exercise + LTCG on sale
Yes	Salary DB + percentile computation + user input	P0 – Must Have	v1	High retention: personalized; drives contribution ('Contribute to improve accuracy')
